

4 HP Pneumatic Chain Saw

Powerful, efficient cutting of wood and plastic

Used successfully for many years in polyethylene plants, petrochemical industries, utilities, underground mines and marine applications

*Model 5 1007 0040
25" cutting capacity*

PNEUMATIC CHAIN SAWS

Underwater chain saw shown with exhaust valve.

Model Series 5 1008

Air Tool Line Conditioner for underwater air tools to displace moisture. Developed to inhibit rust and corrosion of air motors. 1 quart/liter, order part number MS 9105.

- Ideal for use in polyethylene plants, petrochemical industries, utilities, underground mines and marine applications
- Pneumatic power is safer than gas or electric in hazardous atmospheres and wet environments, including underwater applications
- Low maintenance and easy startup – saw chain and motor are automatically oiled by two separate lubricating systems
- Powerful 4 HP motor at 90 PSI air pressure and 92 CFM
- Chain guard to protect operator
- Available with 17", 21" and 25" cutting capacity
- .404 pitch Super Chisel saw chain is standard
- Carbide-tipped and Ripping saw chain are optional

Model No.	Power	Cutting Capacity	PSI	CFM	Length with Bar	Weight (lbs.)	Air Connection	Hose ID
<i>General Use</i>								
5 1007 0010	4 HP	17"	90	92	33"	18	3/4" NPT (ID)	5/8"
5 1007 0020	4 HP	21"	90	92	37"	19	3/4" NPT (ID)	5/8"
5 1007 0040	4 HP	25"	90	92	41"	20	3/4" NPT (ID)	5/8"
<i>Underwater Use*</i>								
5 1008 0030	4 HP	21"	90	92	37"	19	3/4" NPT (ID)	5/8"
5 1008 0040	4 HP	25"	90	92	41"	20	3/4" NPT (ID)	5/8"

** Pneumatic Chain Saw with 17" cutting capacity is also available for underwater applications.*
